

Belvidere July 14

Dear Ruth I regret very much
to write to you I wrote a letter some
time ago but did not have an
opportunity to send it if I had
known that Wright had been going
there I should have sent by him
I enjoy good health this summer
have a brand o root o school it has got
5 week longer to keep Flannell &
keep that school by her father I
rather mistrust she is going off in
the fall but I dont know I have
been out there twice this summer
I cannot tell you whether they have
heard from Andrew lately or not but
I heard Harvey say that he was coming
out to see you this summer that will
do just as well I suppose I dont know
what I shall do when my school is out
but there will be some way provided
there always has been & I think there
always will be
